

50% Hydroxycitric Acid Supplement

Product Information :

Pharmaceutical form :

Category : Dietary Supplements

Pack : -

Brand name : -

Content : -

Therapeutic Use : -

Product Description :

What is 50% Hydroxycitric Acid Supplement?

Hydroxycitric Acid Supplement, also known as a Citrimax, supports the body's normal utilization of calories. It reduces hunger by diverting calories from the development of fat and towards the synthesis of glycogen. Glucose, one of the body's main sources of energy, is stored as glycogen. The body's natural method of telling the satiety area in the brain that enough food has been consumed is increased glycogen production as well as storage. HCA does not stimulate the central nervous system. HCA works best in conjunction with niacin-bound chromium (Chromemate) to reduce appetite, boost energy, and block the synthesis of fat and cholesterol. A 50% hydroxycitric acid supplement is advised as a weight-loss assistance that is complemented by physical activity and a nutritionally-balanced diet.

Best Supplement for Your Health

HCA supplement is an unique range of high-quality, natural-source product. It uses nothing but the best, purest, and most effective substances available anywhere in the world. The highest requirements for purity, potency, and stability are met by this supplement. Every step of our manufacturing process, from the raw materials to the finished products, is done with the strictest standards of quality control.
